REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim(s) , wherein the claimed invention comprises a the lens-holding apparatus being provided with a first clearance in the adjacent two lens frames between the overlap portion of one lens frame and the overlap portion of the other lens frame in a radial direction orthogonal to the optical axis, being provided with a second clearance in the radial direction between the lens surfaces of lenses held by the adjacent two lens frames, the first clearance being smaller than the second clearance, and the lens frames being arranged in the lens barrel, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following references are cited for disclosing a lens barrel having a lens frame(s) with a gap, spacing or clearance, but the references do not disclose the limitation recited in claim 1: Iwata et al. (4472039), Fischer et al. (5926326), Koiwai et al. (6388825) and Hatakeyama et al. (6567224).
